**“I have been a Social Worker for 20 years, and have attended many seminars, but this one is up there with the “best” or maybe “the best” Seminar I have ever attended. The information and the way in which it was presented was the factor that rated this “the best”. Very little was new to me but interacting with peers, reviewing what I have learned and adding to that knowledge made it worth every minute. Thanks to all who worked so diligently with their presentations”
